

JD Security Solutions (NW) Limited is an independent Security company providing manned guarding and security guarding services which offer a range of personable, effective and bespoke security services. Established in 2023, JD Security Solutions (NW) Limited is a upcoming company for providing security guarding and continually working towards various accreditations including ISO9001:2015 and ISO14001

We pride ourselves in providing a full range of Security Management Services and committed to continually improve the contents and quality.

JD Security Solutions (NW) Limited provides security services for both public and private sector domains including Retail, corporate, Construction and event Security.

It is the policy of JD Security Solutions (NW) Limited to provide its customers with an on time and cost-effective security services.

As we are in the process of obtaining our accreditations, we will be putting together a quality manual to ensure we meet all the criteria.

This policy will provide a framework for establishing and reviewing quality objectives, and includes a commitment to comply with requirements e.g., customer, statutory and regulatory and to continually improve the effectiveness of the quality management system.

This QMS will help us provide confidence to our customers and therefore the implementation and communication of the quality policy is mandatory for all our employees, this is also to ensure staff understanding, implementation and maintenance.

Once accredited copies of both the Quality Manual and the Procedures are available for customers to read at any time.
